If I may judge by past experience, some of the items on this list will have been sold before it is mailed. This is quite probable in the case of autographs and the rarer publications which are taken almost as soon as I get them. I suggest, therefore, that collectors file a list of their principal wants with me, so that each may be notified when the desired item comes in.

I have a few copies of my first catalogue which I can supply at 25 cents each. In it are listed many items which I have not been able to obtain since, and it is interesting as showing the steadily advancing prices in this branch of literature. Later lists are out of print, and cannot be supplied.
